

# quick start guide

## Welcome to BlueFlag Internet!

Thank you for choosing BlueFlag Networks. Please use the following information to set up your equipment. If you have any issues during this process, please do not hesitate to contact us at [902-800-7912](tel:902-800-7912) or [1-866-211-9222](tel:1-866-211-9222).

For **ARRIS DG2470 or DG3270** high-speed modems:

1

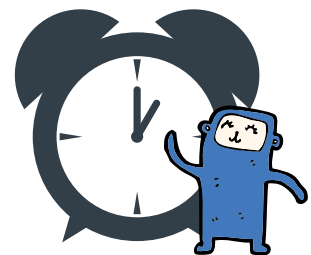

Connect the coaxial cable to the back of the modem.

2

Connect the modem to a power outlet.

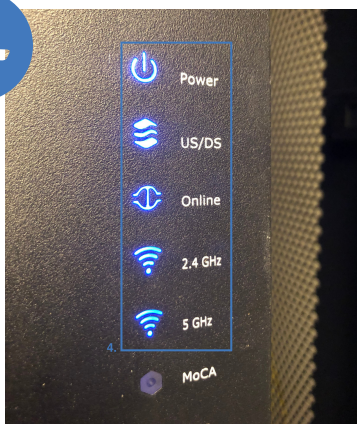

3

Wait approximately 5-10 minutes for the modem to start and perform any software updates that are available (it will do this automatically).

Fun ways to spend 10 minutes include playing cards or building a blanket fort. Not-so-fun ways include tidying your kitchen.

4

Modem is ready when the Power, US/DS and Online lights are solid. The 2.4 Ghz and 5 Ghz. WiFi lights will also be illuminated, but may flash when connected.

5

You are now ready to connect! Attach a device with the included network cable, or connect to the wireless network using the wireless information located on the side of the modem.
